

The 12th US-Japan Future Forum

"Innovation Employing Bio-Signal Technology"

-- Fashion the Future of Silicon Valley--

We are pleased to announce that "The 12th US-Japan Future Forum" is to be held on Friday, September 15th, 2017 at San Jose State University to discuss the future of innovation using bio-signal technology to create the future of Silicon Valley.

The keynote speech will be presented by Stanley Yang, CEO of NeuroSky, Inc. about the applications and the future of bio-signal technology.

Attendees include: the Consul General of Japan in San Francisco, the President of San Jose State University, professors of SJSU and students and academia from seven Japanese universities. Student-led presentations and the panel discussions on the future of bio-signal technology and the industry will also be presented.

- Date & Time: Friday, September 15, 2017, 11:30 – 18:00
- Place: San Jose State University, BBC 004 (Boccardo Business Complex)
 Campus Map: <http://www.sjsu.edu/map>
